DISCOVER PREVIEW ON YOUTUBE

Cristina Radovan is keeping on focusing about the environment, after Cosmos, Forest and Arctic Antarctic her last Collection is about Amazonia. She leaves near Barcelona, in the green, for her is very important to keep the touch with the reality, with mother nature. Her mission is to draw the attention on our beautiful planet and to show us how everything is connected. Through art we can reach anyplace in the world and feel the essence of it. With Amazonia she is showing the beauty and the harmony of the jungle with its inhabitants, colourful animals and native people. Amazonia is pure energy to work with, papers of all kinds, stamps, stencils and printed clear diecuts, a complete line to create great colourful artworks.
