RUB ON

NEW

TRANSFER FILM FOR DECORATION

cm 10.16x21.6

With Rub on you can transfer images on any kind of smooth surface, as if they were printed on it. Very suitable for Journaling and for decoration. Best on light colour surfaces.

How to use: 1) Clean-up and dry the surface where you would like to apply the product. 2) Cut the part of the sheet that you would like to use. 3) Slowly peel off the printed sheet from the backing paper. 4) Place the printed sheet on the surface, and then using your fingers or a rounded object, rub it firmly several times with the same strength. 5) Remove the transparent sheet slowly, checking the design being transferred onto the surface.

Glamour Paste

Glamour Paste is soft in colours and texture because it contains micro grains powder. It is Matt and shiny at the same time because it contains mica crystals. It is beautiful for Stencils and Painting. It can also be used with Texture Impression Moulds to obtain shiny 3D film.

Crackle Paste

The special formula of one-component crackle paste, now also in the metallic version, allows you to quickly enrich any project. The cracks are formed in about 6-8 hours. With the help of the hairdryer the drying time is reduced to 20 minutes. Suitable for porous surfaces.

Patina Anticante

This is a special paste which can be easily applied and removed. By using a cloth it is easy to obtain the desired effect. It is ideal to highlight the crackle slits and to "age" a creation without difficulty. The colors "Ombrà" and "Bianco" are specifically suggested to create shadow and light effects on three-dimensional reliefs.
