Patina Anticante

This is a special paste which can be easily applied and removed. By using a cloth it is easy to obtain the desired effect. It is ideal to highlight the crackle slits and to "age" a creation without difficulty. The colors "Ombra" and "Bianco" are specifically suggested to create shadow and light effects on three-dimensional reliefs.

Cerantica

CerAntica is a thick wax giving a metallic effect. Once it is applied it is not removable. CerAntica is ideal for highlighting embossed elements. It can be spread using a cloth or a brush. The tools used during the work should be cleaned with solvent.

Glamour Sparkles

Sparkles are very reflective and shining because they are made of glass, their colours are matching the Glamour line and the new trendy paper Collections.
Fix it with Extra Gloss Finish KE48M to keep the shiny effect.
