# HOW TO CREATE A JOURNAL BY VICKY PAPAIOANNOU

I get asked a lot about what is art journaling and what's the point of it?!

If you are a creative person and love to play with paints then you know the need to express yourself through art. But how about creating something just for you and not for others?!

In art journaling you work inside a book and not on a canvas, that you have to put up on the wall for others to criticize. Art journaling is all about the journey and not the destination. It's not about perfection and there are no rules. You can use acrylics, sprays, stamps, stencils, pastes, markers, paper, rice paper... anything goes! Just play with your mediums and if you don't like the finished project, who cares?! Just close the book and as long as you had fun it was a success! At the same time art journaling is an art study in composition, color combinations, mixed media techniques and knowing the properties of your mediums.

The more you create the closer you will get to your personal style and the techniques that work best for you. You can always browse through your art journal and see how much progress you have made and how your style has evolved. Inspired from a quote you heard, an image you show, your feelings or even the season you can come up with endless projects that reflect your thoughts. This brand new collection is all about that! "Create happiness" in your art journal and bring joy to your life through art! Basic supplies and versatile designs perfect not only for the experienced crafter but also for those who want to start now!

Get your art journal out and play, it's therapeutic and guaranteed to bring you happiness! But beware... it is addictive!

DC32M  
ml 30

Quick drying  
Ideal for journaling  
Water based

Matt Glue is designed specifically for journaling. The thin tip allows you to be very precise in placing the glue and even more important it is matt and it doesn't show on your page. You can use it also as a finish to protect your work. It dries quickly allowing you to glue many layers without long waits. It easily comes off from your hands.
